VVnT SeQuor at a Glance

Your AI-Powered Capability Partner, Inclusive by Design. We redefine Digital Engineering, focusing on delivering **Effectiveness in Quality, Security, and Compliance** across your products and services. Our expertise spans AI-Driven Solutions, Custom Software Development, and end-to-end **Verification, Validation & Testing** across the lifecycle, including Security, Privacy, Accessibility, DevSecOps, and Mobile Apps.

- Founders bring decades of trusted **AI & Engineering** expertise from leading global enterprises.
- Guided by the unparalleled leadership of Executive Advisor, Mr. Anil Gupta, a 40+ year industry veteran.
- Our 45+ practitioners bring 220+ years of collective experience, ensuring a wealth of deep knowledge and skill.
- Mastery in Cutting-Edge AI: Specializing in **Generative AI & Agentic AI Development**, AI-Driven Testing, Custom Software Development, Cybersecurity (3PAA/VAPT), and AI-Enhanced Managed Support.

Navigating the Complexities of the Digital Era

Rapid Digital Transformation

Increasing demand for quick and efficient digital shifts.

Digital Security Threats

Growing risks to digital security and resilience.

Quality & Performance

Challenges in ensuring quality and performance at scale.

Inclusive Experiences

Critical need for truly inclusive digital experiences.

Leveraging AI

Difficulty in effectively using cutting-edge AI technologies.

Empowering Organizations to Thrive

At VVNT SEQUOR, we redefine Quality, Security, and Digital Engineering. We deliver AI-powered solutions that create inclusive, resilient, and high-performing digital ecosystems.

Leadership Team

Parveen Kumar Arora
Seasoned Quality Security Expert

- Founding leader of VVnT SeQuor, with deep expertise in Engineering Management & Quality Assurance.
- Expert in Cloud Security, DevSecOps & DevOps Leadership, and Continuous Testing methodologies.
- About 24 years experience propelling business success through AI-driven, Quality-focused strategies and fortified cyber defense, ensuring compliant innovation.

Bhawna Narula
Enterprise Digital Transformation Leader

- Founding leader of VVnT SeQuor. Brings over 26 years of experience in enterprise leadership.
- Specialist in end-to-end IT & HR Strategy, Digital Transformation, and Application Modernization.
- Strategically integrates AI/ML & Generative AI, fortifies cybersecurity policies, and drives forward innovative technology implementations.

Anil Gupta
Esteemed Industry Veteran & Advisor

- He is IIT-Delhi B.Tech & Postgraduate (Research scholar) from University Tsukuba, Japan
- Over 40 years of unparalleled industry experience in leadership roles at global technology giants (NEC, HCL Technologies & others).
- Provides invaluable strategic counsel, guiding organizations to build successful businesses and foster corporate growth.
- Focuses on market expansion and advising on cutting-edge technology adoption.

Multifaceted Talent Pool

UI/UX & Frontend Specialists (JavaScript, ReactJS, Angular)

Backend & Database Experts (Python, NodeJS, Java, SpringBoot, DotNet, MySQL)

ISTQB Certified Digital QA Professionals

Certified Cloud & CyberSecurity Practitioner (CCSP, CCSK)

More than 70% of engineers are AI & Automation Savvy certified

Overall ~45 Practitioners @VVnT (220+ Years of Collective Exp.)

Exp. level	Count
15+ years	6
8+ years	8
5+ years	6
2+ years	16
< 2 years	10

DevSecOps Certified Practitioners

ISO 9001, ISO/IEC 27001, ISO/IEC 20000 Certified

ITIL v3 Certified Professionals

Certified Kaizen & Continuous Improvement Practitioners

Certified GDPR Practitioner & Fellow of Privacy Technology

Certified DevOps Leader & Enterprise Coach

Our Distinguished Clientele

- Platform-specific testing for Android and iOS applications
- Web Accessibility Compliance Audits and VPAT report creation
- Dining-related scenario testing for both web and mobile applications
- Strategic consulting provided on a retainership model

- Quality & Security Partner for across ITSM & other domains
- Digital QA outsourcing with bi-monthly Product Qualification / Release Testing
- Comprehensive VAPT Assessments and Security Consulting services
- Test Automation for Web modules and V&V of iFix Platform

- Management of 600+ end-users & server environments
- Comprehensive IT infrastructure support including network, security & storage
- Leading ISO 27001 & SOC operationalization
- Strategic cloud application transformations for enhanced performance
- Advisory services on future-ready IT evolution & architecture

- Engineering Consulting and New Product Development for a HR product company
- Digital QA outsourcing with monthly Product Qualification / Release Testing
- Test Automation for Web, Mobile, and Chatbot interfaces
- Performance, Security. Accessibility & Responsiveness testing

- Engineering practices and consulting for all HR Processes & Technologies
- Engineering solutions for internal applications & SaaS Implementations for HCL & CIO division
- Implementation of Legal & Compliance requirements across 50+ countries
- Security Assessments & Accessibility testing

Our Distinguished Clientele

SAPIENS

- Recommended an End-to-End Learning Management Technology Solution
- Facilitated the organization's Digital Transformation journey
- Verified technical architecture for compatibility & performance
- Ensured Digital Transformation initiatives aligned with organizational goals

trezix

- Provided performance testing for their SaaS platform
- Optimized response times for critical EXIM trade functionalities
- Improved scalability and capacity to handle peak transaction volumes
- Resolved performance bottlenecks impacting trade operations

LogisticsNow

- Engineered the reinvention of a Logistics Product Company
- Delivered Digital QA services with bi-monthly Product Qualification & Release Testing
- Conducted VAPT Audits and led Security Implementation
- Performed Test Automation on key scenarios and comprehensive Performance Testing

Biocon

- Provided Engineering Consulting to optimize Technology Utilization
- Assessed HR Data Architecture for strategic optimization
- Enhanced and validated Automated HR Processes with Verifications & Validations
- Standardized HR Approaches across global processes and geographies.

LARSEN & TOUBRO

- Developed a modern Intranet portal with engaging features
- Integrated with HRIS and external reward systems
- Implemented custom dashboards and reports for business intelligence
- Delivered core functionalities including SSO, Q&A, and engagement tools

Business Solutions Landscape

1 Empowering Digital Evolution …Custom App & DevOps Scaling

- End-to-end Custom Application Development from design to deployment
- Expert Advisory & Consulting on advanced engineering practices
- Dev(X)Ops Transformation: Cultivating agile culture and Value Stream Mapping
- Comprehensive Engineering & DevOps Assessments for continuous enhancement

2 Holistic AI-Driven Digital Testing Services

- AI-Powered End-to-End Testing across full lifecycle
- Intelligent Test Automation for efficient strategies & quality implementation
- Continuous Testing & Shift-Left approach of quality assurance
- End-to-End Functional Testing to ensure system reliability
- Accessibility & Usability testing for inclusivity & better UX
- Globalization Testing for compatibility & high performance

3 Cyber Assurance …VAPT Services Portfolio

- Security Assessments: Infrastructure, Network, Application (VAPT, SAST, DAST, IAST), API & Microservices
- Implementation of WAF, DAM, Application Shielding & RASP tools for robust defense
- Security & Privacy by Design within DevSecOps frameworks
- Privacy Impact Assessments for data protection compliance
- Shift-Left Security Checks & Automation for proactive threat mitigation

4 Specialized AI & Automation Solutions

- AI Models & Algorithms Development and Validation
- Intelligent Automation (RPA) for Workflow Optimization & Efficiency
- Cloud Scalability & Security Assessment / Consulting
- Data Migration Solutions: Ensuring integrity and seamless transitions
- Specialized testing over Blockchain, IoT, Gaming solutions

5 Techno-Legal Assurance & Auditing

- Compliance Audits: Ensuring Regulatory Adherence to Global Standards
- Privacy Framework Compliance: Adherence to privacy regulations and best practices
- Accessibility Guidelines & Standards: Ensuring comprehensive accessibility compliance
- Leveraging AI, Blockchain, IoT, Cloud in Secure manner

6 Application Service Desk Solutions

- Superior L1/L2 Support for enhanced process efficiency
- Advanced L2 Support with diverse channel assistance
- Ticket Management: SLA Tracking and Proactive Monitoring
- Root Cause Analysis for continuous insights and enhancement
- Customized Support Plans tailored to client needs

Driving AI-Powered Digital Engineering, our solutions span Custom Development, 360-degree Quality & Security Assurance, Strategic Consulting, and Optimized Support.

Empowering Digital Evolution
…Custom App & DevOps Scaling

Transforming Your Applications with Modern & AI-Ready Solutions

Holistic AI-Driven …Digital Testing Services

- Digital QA Maturity Assessment
- Test Process Framework Implementation
- Functional Stability Testing
- AI-Powered Test Automation
- Performance Testing
- Security Testing
- Accessibility Testing
- Globalization & Localization Testing
- Conformance & Certifications Testing
- Reverse Engineering & Code Analysis
- Continuous Testing
- DevOps Testing & Scaling

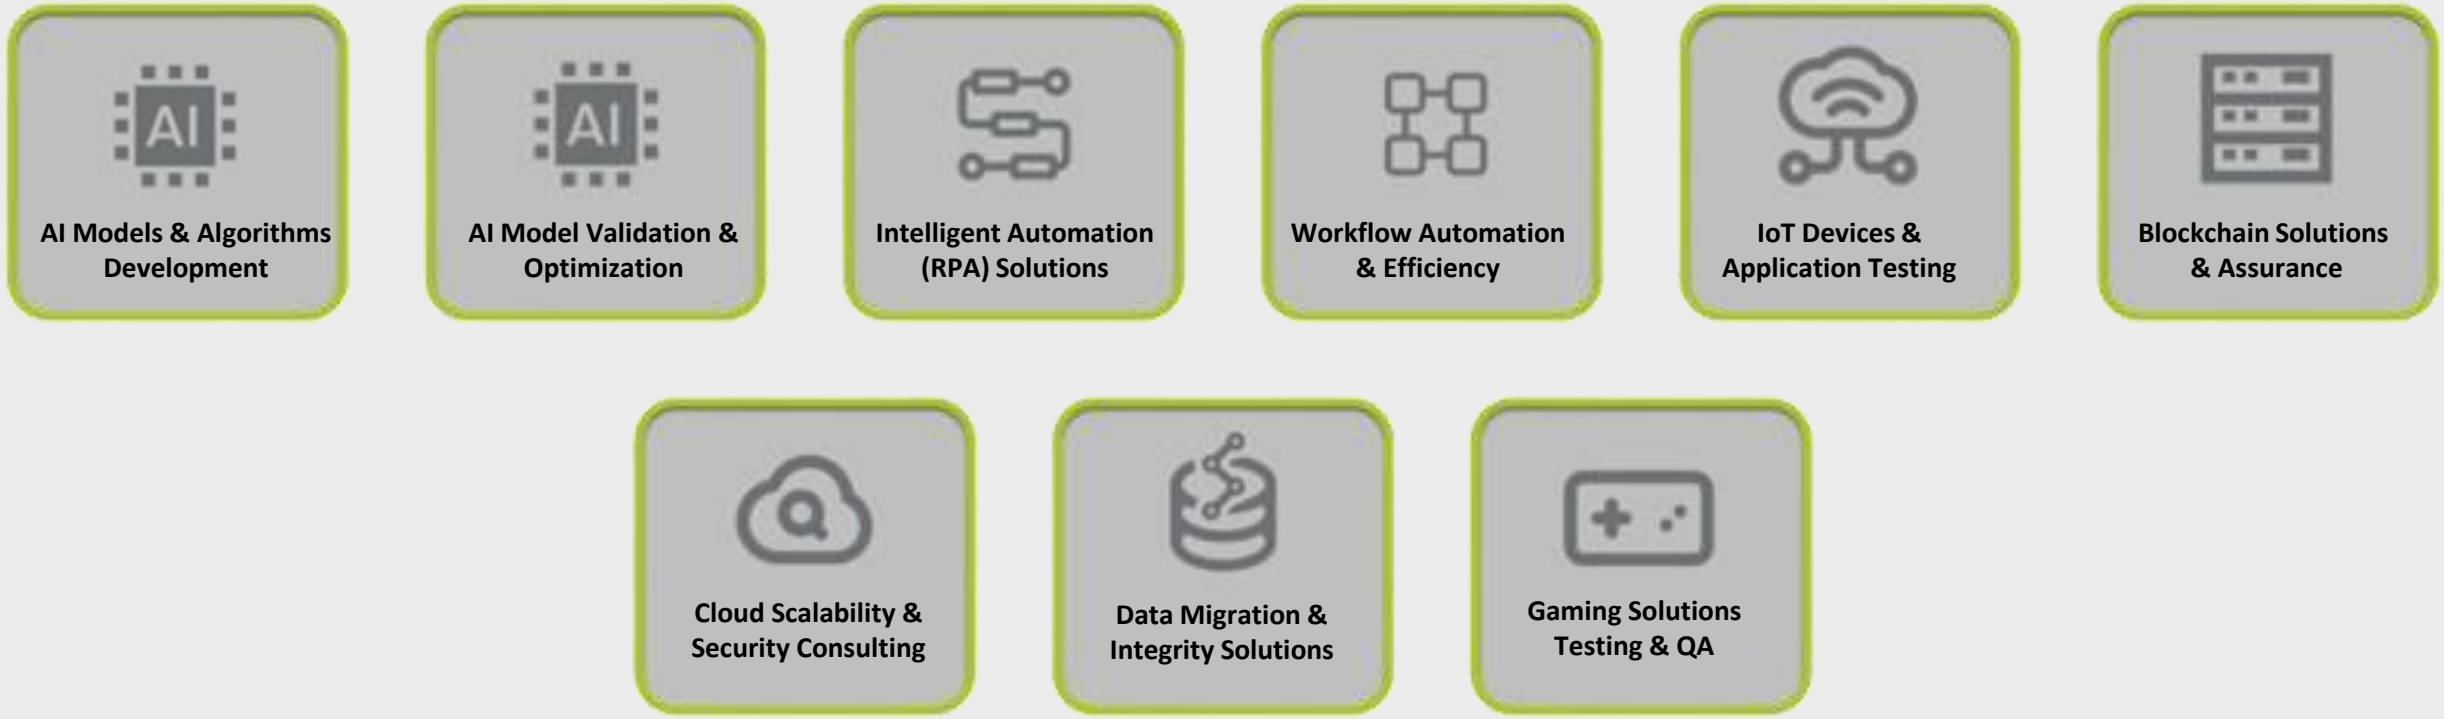

AI-Powered End-to-End Testing, Revolutionized with VVNT

Cyber Assurance
…VAPT Services Portfolio

- Cybersecurity Maturity Assessment
- Application & API Security Testing
- Product Security Assurance
- Network & Infrastructure Penetration Testing
- Mobile Application Security Testing
- Cloud Security Architecture & Assessments
- Identity & Access Management Solutions
- Privacy & Data Protection Consulting
- Advanced Cyber-Defense & Safeguards
- Real-time Security & Threat Monitoring
- Shift-Left Security & Automation
- Cybersecurity Governance Risks & Compliance

From Strategic Assessments to Resilient Digital Ecosystems with VVNT

Specialized AI & Automation Solutions

Driving Innovation: Implementing Specialized AI & Automation Solutions with VVNT

Techno-Legal Assurance & Auditing

- Covering Security, Privacy, PCI DSS
- Expertise in CIS, MITRE, OWASP, SANS
- Addressing GDPR, CCPA, HIPAA, DPDPA
- Adhering to WCAG, Section 508, ADA
- Auditing for AI, Blockchain, IoT, Cloud
- Customized Awareness Sessions

Ensuring Regulatory Adherence, Uncovering Risks & Fortifying Success

Application Service Desk Solutions

- Optimized Process Improvement
- Comprehensive Multi-Channel Support
- Service Level Agreement (SLAs) Tracking
- Advanced Proactive Monitoring
- Insights for continuous improvement
- Tailored & Customized Support Plans

Ensuring Your Application's Success, Every Step of the Way with VVNT

Synergy Partners

More Than a Vendor, A True Capability Partner

AI-Powered Innovation

Deep expertise for tangible business results.

Holistic Approach

Integrating Quality, Security, and Digital Engineering.

Trusted Advocate

Partnering for success in systems, processes, people, and tech.

Diverse Engagement Models

Collaborate with Our Certified Professionals for Specialized Project Delivery
